Glencorse WTW Project

Glencorse Kirk Road Closure

Pipeline installation work will be carried out on Glencorse Kirk Road from next week. To date the pipelines have been laid from the new treatment works site across the Glencorse Burn and into the Crawley Springs field. The next stage of the works is the installation of the new mains across Glencorse Kirk Road and a road closure has been agreed with Midlothian Council Roads Dept. which commences on Monday 9th November and is in force for 3 weeks.

The road closure will extend over a distance of approximately 300m from the junction with the A702, as detailed on the sketch below. Diversion routes have been agreed with Midlothian Council and these will be signposted throughout the course of the works.

Should you require any further information, please contact Scottish Water's **Customer Helpline** on **0845 601 8855**, quoting Glencorse Water Treatment Works Project or visit the website **www.scottishwater.co.uk/glencorse**
